And What Have You

By BOB CRAIG

Our congratulations go to Bill Cork and David Willis for earning a place at the state track meet in Austin next week. Bill took three first places at regional and David one. Bill be competing in the high jump, the broad jump and the 220-yard dash, while David will be running in the high hurdles.

It is quite an accomplishment for two sophomores to qualify for the state meet and we are proud of both of these boys.

It was a shame that Johnny Jones' leg muscle had to act up again or we probably would have had three more boys going to the state meet in the 440-yard relay. Johnny pulled his muscle in the prelims when the team of Johnny, Albert and Alfred McAfee and Bill ran the best time of the meet. But since these boys are sophomores and freshmen they will have two more chances at the state title.

The following is reprinted from the Tiger Tattler school paper in Lawrence, Kansas, and was given to us by Harold Wells. We have seen it reprinted elsewhere but feel it is worth repeating again.

IN LOVE WITH LIFE

OR

How It Would Be If I Were Killed In An Automobile Accident

Agony claws my mind. I am a statistic. When I first got here I felt very much alone. I was overwhelmed with grief and I expected to find sympathy.

I found no sympathy. I saw only thousands of others whose bodies were as badly mangled as mine. I was given a number and placed in a category. The category was called "Traffic Fatalities."

The day I died was an ordinary school day. How I wish I had taken the bus! But I was too cool for the bus. I remember how I wheeled the car out of Mom. "Special favor," I pleaded. "All the kids drive." When the 2:50 bell rang I threw my books in the locker. I was free until 8:40 tomorrow morning! I ran to the parking lot — excited at the thought of driving a car and being my own boss. Free!

It doesn't matter how the accident happened. I was goofing off — going too fast. Taking crazy chances. But I was enjoying my freedom and having fun. The last thing I remembered was passing an old lady who seemed to be going awfully slow. I heard a deafening crash and felt a terrific jolt. Glass and steel flew everywhere. My whole body seemed to be turning inside out. I heard myself scream.

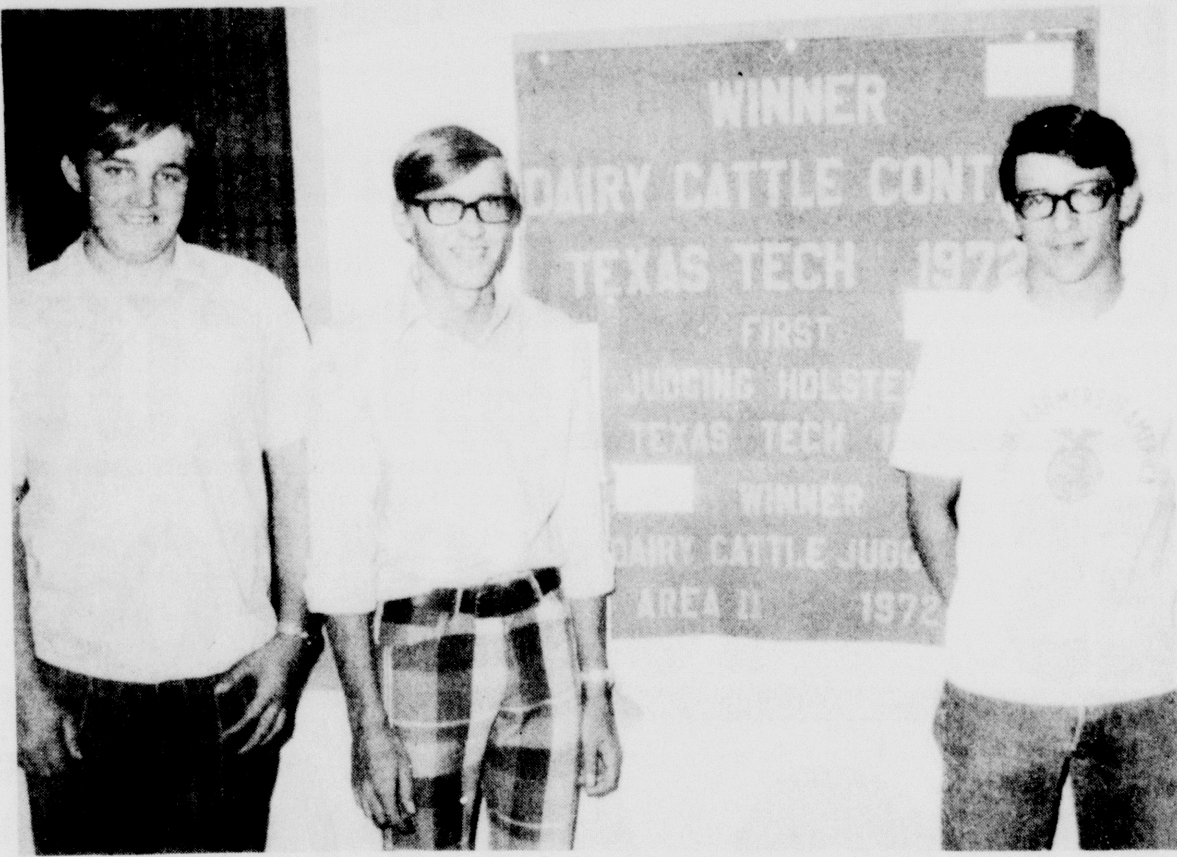

Suddenly, I awakened. It was very quiet. A police officer was standing over me. Then I saw a doctor. My body was mangled. I was saturated with blood. Pieces of jagged glass were sticking out all over. Strange that I couldn't feel anything. Hey, Don't pull that sheet over my head. I can't be dead. I'm only 17. I've got a date tonight. I'm supposed to grow up and have a wonderful life. I haven't lived yet. I can't be dead.

Later I was placed in a drawer. My folks had to identify me. Why did they have to see me like this? Why did I have to look at Mom's eyes when she faced the most terrible ordeal of her life? Dad suddenly looked like an old man. He told the man in charge, "Yes — he is our son."

The funeral was a weird experience. I saw all my relatives and friends walk toward the casket. They passed by, one by one, and looked at me with the saddest eyes I've ever seen. Some of my buddies were crying. A few of the girls touched my hand and sobbed as they walked away.

Please — somebody — wake me up! Get me out of here. I can't bear to see my mom and dad so broke up. My grandparents are so racked with grief they can barely walk. My brother and

PECAN PIE ENTRY — Mrs. Joe Wayne Carter, local homemaking teacher, takes a pecan pie from the oven at her home. The recipe is one that she has entered in the Blue Ribbon Food Fair.

Mrs. Carter Enters Pie Recipe In Food Fair

Mrs. Joe Wayne Carter, home economics teacher at Hamlin High School, has submitted a recipe in a national awards program, sponsored by Favorite Recipes Press.

Her recipe for Pecan Pie has made her an official entrant in the Blue Ribbon Food Fair and eligible for cash awards totaling \$5,000.

Five finalists will be selected from the hundreds of entrants to participate in the Blue Ribbon Food Fair scheduled for May 12-13 in Chicago, Ill.

Prize money ranges from \$2,500 for first place to \$250 for fifth place.

All recipes submitted for the awards program are judged by a panel of food editors and home economists. The top recipes will be selected for taste, appearance, creativity, originality, and ease of preparation.

Mrs. Carter has taught homemaking for 19 years and was named head of the department this year. She taught in Loraine from January, 1951, to August, 1952, when she came to Hamlin.

She was named an honorary member of Future Homemakers of America, Texas Association, in 1971.

The former Edith Ann Scott, daughter of Mr. and Mrs. K. T. Scott, she was graduated from high school here in 1947 and from Texas Woman's University in 1951.

Her husband is a foreman at Celotex Corporation. They have

one son, Joe Bob, 8. They are members of First Baptist Church.

Mrs. Carter, in giving the recipe to The Herald, admitted that when pressed for time she used a frozen pie shell from the grocer.

Her recipe follows:

PECAN PIE
by Edith Carter
Mix the following ingredients together:

3 eggs, beaten
1 c. white (clear) Karo
1/8 t. salt
1 t. vanilla
1/2 c. sugar

Sprinkle 1 c. pecans or walnuts in unbaked pie shell. Pour the above mixture over the nuts. Bake at 400 degrees for 15 minutes; reduce heat to moderate, 350 degrees and bake 30 to 35 minutes longer or until a knife inserted in center of filling comes out clean.

PASTRY
(Makes one double (for fruit pies) and one single or three single crusts) Blend:

3 c. flour
1 c. Crisco
1 1/2 t. salt

Beat: 1 egg
Add: 5 T. water
1 t. vinegar

Roll on lightly floured board and fit into pan. Can be rerolled many times without becoming tough. Can be frozen.

I know not how to account for it; but I have no doubt that dress has a great deal of influence upon the mind. Every one has felt himself more disposed to decorum and propriety and courtesy and other good qualities, when genteely dressed, than when in slovenly apparel.

The cooler the home, the warmer the marriage.

Marriages may be made in heaven, but it's hard to keep them heavenly when it's hotter than blazes.

That's where central gas air conditioning comes in. It can bring you together. All summer long. As close as you want. All summer long.

And it won't cost you much either. In fact, if you have gas heating in your home, you could easily have half a central air conditioning system already. Because you may be able to use the duct work and furnace blower you already have. That saves about fifty percent on installation costs.

That's just part of the savings. Gas costs less to operate than electricity. And you get special low rates during the long hot summer months.

But you'll save more than money with gas. You'll save time and energy, too. Because with central gas air conditioning there are fewer moving parts. Fewer breakdowns. Fewer repairs.

This summer, have central gas air conditioning installed. For love's sake.

A splendid rain amounting to one inch or more fell over Hamlin and surrounding territory Tuesday night. Following the big rain which this section of the country received Thursday of last week, this moisture will be of wonderful value to the crops that are already up and has put the ground in good condition for other planting. The lakes have an abundant supply of water and the pastures are covered with a beautiful carpet of green.

Last Tuesday, Hamlin played Rotan at Rotan. The pitcher Thurman for Rotan and Stuart for Hamlin, fought until the finish. Rotan defeated Hamlin 3 to 2.

This week, from April 21 to the 27 has been declared by the Mayor of our city as Clean Up Week. This movement is being sponsored by the Chamber of Commerce and other Clubs of the city, but sponsoring a movement does not mean putting it over. Cleaning up a town requires the united effort of every citizen of the town, so let's get busy.

Beginning Saturday night before the First Sunday in May, Elder Charles W. Watkins of Petersburg will commence a revival meeting at the Church of Christ in McCauley. All have a cordial invitation to attend.

TWENTY YEARS AGO

Telephone service in Snyder was curtailed beginning at noon Wednesday when union telephone workers at Hamlin walked off their jobs in sympathy with a nation-wide strike by members of union workers employed by Western Electric Company, manufacturers of phone and telegraph equipment. A skeleton crew was handling emergency calls through the Hamlin office.

Voters of Hamlin approved the proposed \$625,000 water improvement bond issue by voting nearly two to one

in favor of both propositions appearing on the ticket in the special election Tuesday.

Hamlin Lions Club will net about \$175 from the annual Variety Show presented last Friday evening at Hamlin High School auditorium.

Proving World Gets Funnier and Funnier

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One takes an oblong view of a few items in the news lately.

Dear editor: Have you noticed that the world's getting funnier all the time?

For example, to dramatize the high cost of meat, Life Magazine published an article on the sad plight of a family who has to eat mostly chicken and T.V. dinners because it just can't afford beef these days, not after it meets its payments on a 3-bedroom brick home, two station wagons and a swimming pool.

Clearly, ranchers ought to be horsewhipped for taking advantage of such people.

Or another example: we spend 450 million dollars on a brand spanking new space ship the moon and what happens? Thirty minutes after it takes off the paint peels off. I can buy paint cheaper than that that'll peel off just as fast.

Or take Russia, which has no private industry for environmentalists to picket if they didn't mind getting shot but is going to have to spend 1 billion dollars to try to clean up the Volga River which is completely polluted for its entire 2,300 miles through the heart of the country. I guess Marx failed to set up guidelines on pollution.

Or take college students, who are good at protesting the wickedness of the establishment but have overlooked demonstrating against the

multi-million-dollar outfits who sell term papers to fellow-students who can't get around to writing their own.

I haven't heard of it yet but I suspect some politician, hard-pressed to find a new source of tax revenue, will, when he thinks of it, come up with the idea of taxing taxes. "Look," he'll say, "the internal Revenue Service takes in more money than any other outfit in the

country, more than General Motors, U.S. Steel, the telephone company, even more than I.T.T. If there's that much money there, there's bound to be more. Let's levy a tax on taxes."

As Thomas Jefferson said, Give the people light and they were given light and now it shows up on our electric bill. Yours faithfully, J. A.

LONGING

To every child there comes a time when they begin to wonder . . . Where

did I come from? Who made the trees? Who made the mountains?

EVERYONE has a desire to know their creator.

"O GOD, thou art my God; early will I seek thee: my soul thirsteth for thee..."

This longing for knowledge of God should be satisfied

at an early age.

"Train up a child in the way he should go: and when he is old, he will not depart from it."

Plan NOW to attend church with your family.

©Coleman Adv. Ser.,

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

APOLLO 16 LAUNCH—

Mrs. Gibson Views Moon Shot from Press Gallery

by Mrs. Everett Gibson
My being present with an estimated one million visitors to see three astronauts begin their trip to the Moon was my dream of this Space Age.

The rumbling 6.4 million pound Apollo 16 rocket blasted from the launch pad at Cape Kennedy at 12:54 p.m., April 16, 1972, on its way toward man's fifth landing on the moon.

Thanks to the power of the press and news media, we were seated in a covered grandstand, protected from the hot sun while over 7,000 government dignitaries blistered in their open-air seats a half mile to our left.

Cameras were everywhere...little ones, huge mobile units, and one large camera that was operated by three ladies; all photographers were intent on getting the best pictures possible. Imagine insignificant me, representing The Hamlin Herald, and receiving equal treatment in the reserved section for reporters as did reporters from Associated Press, Time and Life Magazine, Reuters International, News-Science, Aerospace News of London, Today's Space Age of Cocoa Beach, Fla., Japanese reporters and many others. Of course, television cameras from NBC, CBS, ABC, and numerous smaller broadcasting stations were in evidence. My son was near enough to speak to John Chancellor of NBC.

Our vantage point for watching the launch was directly back of the count-down clock which is seen on TV. Our stands faced the rocket which was on the launch pad about two miles away. Directly in front of the clock was a canal of water that was backed up from Banana River. Believe me, two miles away was near enough! When the rocket was fired, the ground we stood on shook and waves formed on the water in the canal.

Excitement mounted as time for the blastoff became closer. Finally at fifteen minutes before zero hour, all the reporters and cameramen swarmed out of the grandstand to places near the canal. There in the opening we could follow the ascension of the rocket with our cameras. I felt at home standing on the sandy, loam soil which was covered with patches of grassburrs.

Time ticked off too rapidly those last five minutes as everyone was busily checking last details before picture taking. Then billows of white smoke emerged, followed by streaks of the brightest flames I had ever seen, and within seconds there was a crackling boom, the rocket fired. Momentarily it appeared to remain still; then it began to lift

off on its way to the moon with Commander Captain John Young, Lt. Col. Charles Duke, and Lt. Commander T. Ken Mattingly II aboard.

The blastoff happened so suddenly that one hardly had time to take pictures; for a few moments we were inactive because we were awed by the event. Then action was the word...snap, snap, grind, grind, grind went the sounds of cameras. Those press groups which had more than one photographer were at an advantage because the workers took turn applauding and taking pictures of the breathtaking event.

The cloud formation over the launch site caused the rocket to vanish behind a cloud screen; then zip it went, raising higher as it scattered the clouds into lacy patterns. Soon the rocket was boosted to approximately 43 miles and the first stage of the Saturn 5 launch vehicle dropped off into the Atlantic Ocean. The second stage took over, pushing the spacecraft to an altitude of about 114 miles where it, too, burned out. When the third stage ignited to push the spacecraft toward Earth orbit, we left our press site but not before Apollo 16 and its courageous crew were given a rousing salute from a thrilled earthly crowd.

Hurriedly each group silently folded or packed their equipment and boarded nearby buses for the slow, bumper to bumper traffic jam back to the press parking lot 25 miles away in Cocoa Beach, Fla.

Our bus was fortunate to be among the first to reach Cocoa Beach. We quickly loaded into our rented car and started the drive to Orlando, Fla. From the car radio, we heard the startling news that the rocket had already completed one orbit around the earth...Some speed as compared to our slow ride of 25 miles from the launch site!

Our slow drive from Cocoa Beach to Orlando was without a cool, refreshing soft drink because the cold drink machine had been empty for hours. Imagine supplying drinks for a million visitors!

We arrived at Orlando Airport five hours ahead of our flight schedule and due to the traffic jam, forty government dignitaries failed to show for the flight out to Atlanta, Ga., and we were able to secure seats on the early flight. Thus we arrived in Atlanta, the transportation hub of the South, at 6:15 p.m. Sunday. This beautiful, historic city with its many restful parks and lovely flowers was an ideal place to spend the first peaceful night of our trip.

At 10 a.m. Monday, we left Atlanta for familiar Texas. On the flight to Houston, we had

time to reflect on the highlights of our trip in addition to the launch. One outstanding event for us was to go to dinner with Dr. Fred Horz, geology crew trainer for the astronauts on Apollo 16. He and his Greek friend, Helen Pausjiofopovlavionia, a math specialist, enjoyed the successful launch, and we Texans marvelled at the vast amount of knowledge that Dr. Horz possessed; yet, he relaxed with us at a fish dinner at Captain Ed's restaurant on Saturday night.

Other moments for us to remember were the power of mass communication and the hospitality we enjoyed on the press tours, the enormous transportation problems that were capably handled by veteran transportation directors, and the serious dedication of the people who witnessed the launch.

My thanks to our son Dr. Everett K. Gibson, geochemist at NASA Manned Spacecraft Center Houston for persuading me to go as his guest, and a special thank you to Mr. and Mrs. Bob Craig of The Hamlin Herald for allowing me to represent their paper with a press badge that opened doors for me to attend all meetings.

Congratulations to the Track team and the FFA Judging Team for doing splendid jobs last weekend in their fields of competition! They are not only making a name for themselves, but are setting a perfect example of the kind of material HHS can and does produce!!!

The Student Council is sponsoring a Talent Show to be given as an assembly Friday afternoon at 1:00. Students of HHS have been preparing skits, songs, jokes, and other forms of talent for the "goof-off" event. I'm hoping that this show will be a big success, because the kids at school have been wanting and waiting for an assembly that creates amusement and participation. Maybe this will be a good chance to liven up the spirit at HHS!

Monday afternoon the girls (and coaches) began workouts for the Powder Puff Football game that will be scheduled either Monday or Thursday of next week. The girls feel that

they are in excellent shape for the big game, despite what their coaches say!

The Band Spring Concert will be held May 8 in the Auditorium. The Band has been heard at work in making this a most delightful concert. The contest pieces will be played, in addition to many other songs. Tickets are now on sale from any band member.

The HHS Cheerleaders have been teaching yells to future cheerleaders-to-be every afternoon after school. This is very helpful to the hopefuls, for it helps them gain experience and confidence. The tryouts and elections will be held during the week the Seniors leave for their trip.

The Student Council elections will also be held during the absence of the Seniors. There will be an assembly where the nominees may present their platforms and speeches, and afterwards will be the voting. That week will be full of excitement, not only for the Seniors, but for everyone at HHS.

William Berry Finishes Basic At Ft. Polk, La.

FT. POLK, LA. — Army Private William M. Berry, 21, son of Mr. and Mrs. Troy O. Berry, Route 2, Hamlin, recently completed eight weeks of basic training at the U. S. Army Training Center, Infantry, Ft. Polk, La.

He is a 1969 graduate of McCauley (Tex.) high school. His wife, Nina, lives at 607 Pecan St., Sweetwater.

News deadline is noon Tuesday.

AUSTIN — Atty. Gen. Crawford C. Martin jarred legislators with an opinion that they are prohibited from hiring not only their own relatives but those of other lawmakers.

The opinion, requested by new House Speaker Rayford Price, thus declared illegal a long-standing practice which, only within the last few weeks, has attracted widespread critical attention.

Meanwhile, State Sen. David Ratliff of Stamford, whose family hiring practices and son-and-daughter job swapping with another legislator triggered a threatened investigation, said he may resign.

More than 40 legislators freely admit relatives were on the state payroll (usually in the Senate for House members' kinfolks and in the House for the Senate kin) during the last five years. Many of the cases involved nothing more than legislators' children working as pages, but combined salaries of the improperly-hired totalled more than \$120,000 since 1967.

Martin said an article of the penal code forbids a member of one house of the legislature from hiring a relative (within restricted degrees by both blood and marriage) of a member of either house when the employee is paid from public funds.

Lt. Gov. Ben Barnes issued prompt orders that any Senate employee related to a legislator will be dropped from payroll immediately.

House Speaker Rayford Price said he also plans full cooperation.

With one state representative indicted for allegedly using state postage stamps to buy a pickup truck and another known to have leased furniture for his state office from his own firm, the House administration committee also proposed new limitations on lawmakers' expense accounts.

NO NEW TAXES: Smith — Gov. Preston Smith, in a statewide campaign speech via television, threatened to veto any tax bill passed by the legislature in special session this summer.

"I will present a budget that will require no new taxes, and I will use every available authority of the governor's office to insure that such a budget is enacted by the Legislature," said Smith.

Smith claimed he is the only candidate for governor who "can and will insure that taxes will not be higher in 1973."

Financial observers are waiting to see how the governor is going to shave the 1973 budget by an estimated \$150 million to avoid another tax bill. He may rely on increased federal revenue-sharing or an increasingly-improved revenue picture.

REVENUE-SHARING AIDS CITIES, COUNTIES — A federal revenue-sharing bill approved by the U. S. House Ways and Means Committee last week would provide \$202 million a year to Texas cities and counties.

Allocation of the funds would be retroactive to Jan. 1, 1972, if the bill becomes law.

Enthusiasm of some city officials for the revenue-sharing plan was dampened by an apparent provision that states participating would have to adopt state income taxes or receive a lesser amount than those which do levy taxes on income.

Health department officials urge inoculation of horses against Venezuelan equine encephalomyelitis (VEE). Another outbreak is expected.

Donald Eastland is new chairman of the State Judicial Qualifications Commission; Howard C. Davison of Lubbock is vice-chairman and Robert C. McGinnis of Austin secretary.

The first Texas State Arts and Crafts Fair is scheduled May 31-June 4 in Kerrville, and may attract more than 200 craftsmen and artists.

University of Texas regents awarded a contract for sale of \$10.3 million in state ad valorem tax bonds for UT Arlington.

ARE WE GETTING ANYWHERE?

"Are we getting anywhere against cancer?" That's the question most often asked of the American Cancer Society. The answer is a very definite "yes". And here's why.

The earlier you find cancer, the better your chances of cure. In the 1940's, if *colon-rectum* cancer was treated early before it had spread, 51% of the patients were saved — only about one half. Today this figure has risen to 69% — more than two thirds. Among *lung cancer* patients, early treatment before the cancer had spread lead to only 12% survival. Now it is 29% — an improvement, yes. But we have an even better weapon against lung cancer — not smoking cigarettes.

Uterine cancer patients were saved in 68% of the cases when treated while the cancer was localized. That was in the forties. Today the figure is 81% and could be close to 100% if every woman had a Pap test and was treated promptly and properly.

Yes, we are getting somewhere. Longer life with earlier detection and prompt treatment. That's the word from your American Cancer Society. Support the Society so they can spread the word.

A Stitch In Time

More than 90 percent of breast cancer patients discover the tumors themselves, through breast self-examination. The American Cancer Society urges every woman to check with her physician if she notices a lump or thickening.

A message for daddies from the American Cancer Society: have a checkup once a year for your sake and the family's.

Cigarette smoking can rob you of years of life. Nobody likes a quitter, but we do say the American Cancer Society.

Woodrow Simmons Issues Statement In Campaign

In this, my formal statement to the voters of Jones County on my candidacy for re-election to a second term as your sheriff, I wish to express my regret at not being able to find the time to see each and everyone of you personally. I feel however, that my primary obligation is in carrying out to the best of my ability the duties of the office which you entrusted to me some three and a half years ago.

I am taking this means, therefore, to invite your investigation of my administration and ask for your support and vote in the upcoming May 6 Democratic primary if you feel that I have been faithful to the trust imposed upon me when I took the oath of office for my first term.

With the completion of this first term I will have served 12 years as law enforcement officer. The varied experience including four years as a city patrolman, four years as chief of police in Anson and four years as county sheriff. To supplement this experience I now have to my credit 140 hours of instruction in all phases of law enforcement. This experience and instruction has earned for me the certification of Texas Commission on Law Enforcement Standards and Education, which is now a requirement that law enforcement officers must meet before they can qualify for positions in Texas.

While serving as your sheriff I have tried to update all services and facilities of the office and the jail to meet all state requirements and to operate

'Big Thanks' To Workers

Dear Editor:

It was such a joy to see so many of our people happily participating in the Cancer Crusade.

We want to say a "Big Thank You" to LaVerne Hunter, and Joye Cary who assisted here, and the 10 or 12 captains plus the five to 10 workers they each had helping them — and to each of you who contributed.

Our goal for Jones County is higher this year and it is our hope we shall exceed our goal, that we may have a part in the research which will discover a cure for this dreaded disease. The life saved may be YOURS, so please give as generously as you can.

Sincerely,
Lois Patterson

SPECIAL BIRTHDAY GREETING — Mrs. W. W. (Erma) Wallace, right, presented an "extra special" birthday greeting to Clarence Bailey Saturday morning on his 80th birthday. The greeting which was covered with 168 signatures brought smiles to Mr. and Mrs. Bailey, who just Mar. 25 of this year marked 55 years of marriage.

MARKS 80TH BIRTHDAY —

Boyhood Dream Comes True For Clarence Bailey

A dream of a young boy in Moody, Tex., was realized Saturday when Clarence C. Bailey reached his 80th birthday. Mr. Bailey, who remembers some men who were about 80 years of age when he was a child in Moody, said that his wish was to live to be that age. His deep respect for these gentlemen helped to form this goal in his mind.

The special day, Saturday, Apr. 22, was started with a prayer, he said, as he thanked God for the dawning of the day of his 80th birthday. He gave thanks for his wife, Leuna, and for God's care over them, he said.

About noon a friend, Mrs. W. W. (Irma) Wallace, delivered to him a special birthday greeting. A colorful picture of a doll captioned with "Happy Birthday, Mr. Bailey." The card was covered with 168 signatures of his friends.

Mrs. Wallace said that the card started out as just a large greeting but as others saw it, they wanted to express their good wishes also. She contacted special friends as long as time permitted, she said.

Mr. Bailey retired in 1962

after serving the public for 56 years.

He continues to be very active as their home at 318 N. W. Ave. A attests to this fact. The well kept shrubs, trees and flower gardens form a splendid setting for the well kept two-story home. Several patios built by Mr. Bailey are well used, especially when the couple's children and grandchildren come to visit.

In May, 1906, Mr. Bailey said, a family came into Hamlin from Stamford where they had stayed a few days. The family, S. C. Bailey, his wife, three little sons and a daughter, migrated from Moody.

"Our first night was spent in the Hickey Hotel," he said. "All occupied a 10 x 12 foot room, but we liked it. Things were going fast — tents and quickly built houses for most. The next day we got a good location and joined the throng."

In speaking of himself, he said, "One of these little boys was 14 years old, it was love at first sight, a true love; a love that has never died. Soon this boy found his place here, and a companion, who shared this love all the way."

"Here, we made our home

and the Lord blessed us with seven wonderful children who are filling their places well on earth," he continued.

"We are indeed grateful God directed us here — among the most friendly good folk anywhere. Today we still love this place, the people and praise the Lord for all Blessings all through life."

From 1906 to 1907 Mr. Bailey worked part time for W. M. Holland and Sons Dry Goods. He worked as a clerk for Nobles & Scales from 1908 to 1911. Other employment was with W. M. Green & Son, 1911-1914; Pool Whittington, 1915 — 1919; co-owner of Cecil & Co., 1919 to 1926; Workman Dry Goods

Company, 1927 & 1928 and manager of Strauss Dry Goods Co. from 1929 — 1942; Bryant Link Co., 1942-1950.

From 1950 until his retirement in 1962, he owned and operated Bailey's Department Store.

His wife, the former Leuna D. Davison, was bookkeeper and cashier for Pool Whittington General Store.

He served as secretary of the Hamlin Board of Trustees and was secretary of the Hamlin Chapter No. 310 R.A.M. for several years. He is past secretary and president of the Hamlin Lions Club and served on the Board of Stewards of First United Methodist Church.

The couple's children are four sons, Mark of Lake Side Calif., Clay C. with NASA in Houston; Roy A. of Odessa and Ralph of Howe; two daughters, Mrs. M. G. (Callie Jo) Torbett of San Diego, Calif.; Mrs. W. W. (Vie M.) Fomby of Odessa. One daughter, Gladys, is deceased.

They have 14 grandchildren, 14 great-grandchildren and one great-great-granddaughter.

"I'll Veto Any Bill that Does Not Have a Public Hearing"

"The practice of passing legislation without public hearing is purely undemocratic. We've got to put an end to it. When I am governor, no bill will get my signature on it until it has been fully considered in a regular public hearing." People are not likely to participate in government, as they should, as long as there is a government that doesn't have their confidence and trust. I'm concerned about a restoration of confidence in government, so that we can have good public participation."
